

## Making a Difference Together

Our donation for a new organ at St. Margaret's Church in Weiler

*St. Margaret's Church in Weiler*

*The historic organ in the church interior*

After decades of faithful service, the organ at St. Margaret's Church in Weiler has reached the end of its service life. An assessment by Thomas Haller, the organ expert of the regional church, came to a clear conclusion: further investment in the existing instrument can no longer be justified - a new organ is needed.

Cultural and church life are very important to the Krapohl-Wirth Group. Churches and their music shape community life - they are places of encounter, comfort and joy. That is why we have decided to support the Weiler parish with a donation, helping to preserve this valuable instrument for generations to come.

*Praise him with trumpets; praise him with psaltery and harps;  
praise him with tambourines and dancing! - Psalm 150:3-4*

We are delighted to join the parish and other supporters in making this project possible - because music brings people together, and an organ is the heart of every church.
